

2018-2019 RBI Summer Baseball Structure

The following is our RBI Summer Baseball Structure for all players 9-12. In order to provide parents and players with as many choices as we can, but also be able to have our kids be and play together during summer we have devised the following program that allows for as many choices as possible. ****Every player in our program 9-12 will choose one of the following options.** You are more than welcome to play with any other team on weekends in conjunction with these options. However, these games are essential to continue building our program. All games and team camps will take place during the week so there should be no conflicts with other summer opportunities. (Nationals, 417, White Brothers all communicate with our coaches in order to be able to allow kids to do both if they so choose).

**You may now play with any additional program and/or showcase of your choosing

**League nights will consist of a JV and Varsity team at different locations and will play two 7 inning games
